

Task Management User Stories

S5/1	Who: As a Tutor	What: I want to create tasks for students
Why: To assign practice work and track progress		
Then: I can create a task with a title and a due date, I can then assign one or multiple students. I also have the option of adding a description, add attachments or resources. I receive notification when the task is completed.		

S5/2	Who: As a Student	What: I want to view my assigned tasks
Why: To understand what work I need to complete		
Then: I can see all assigned tasks, filter the ones in progress and/or completed. The tasks are ordered by due date and it tells me how much time is left.		

S5/3	Who: As a User	What: I want to mark tasks as complete
Why: To track the user's progress		
Then: I can mark my own tasks as complete. I can add completion notes, upload completion evidence if I desire. Other parties gets notified of completion
